THE MAJESTY OF PVC LAMINATES

THE MOST *exclusive* COLLECTION OF LAMINATE INDUSTRY EVER

ABOUT *us*

BIGGEST INDIAN MANUFACTURER

COLOR CORE PVC LAMINATES

INDUSTRY LEADER

MERAKI, the name itself speaks about creativity and innovation from soul. Started in 2015, MERAKI is now the INDUSTRY LEADER and the Biggest Indian Manufacturer of PVC Laminates with a production capacity of 1.2 million sheets annually, known for the Quality and Service of our products Pan-India. A most trusted brand and an International Standard by which all Interior Companies define themselves. These laminates with the thickness of 1.2 mm are custom made to align with the needs and to enhance the beauty of Home Interiors, Corporate Offices, Lounge and other interiors. The offered PVC Laminates are manufactured and designed in various finishes like Natural Woods, Anti-Finger Solids, Metallic High Gloss, Koreano Veneers, Luxury Aura, Shimmer, Textured Metal Finish, Super Matt and other Premium Collections to transform your house into your Dream Home. Keeping in mind the health of your loved ones, MERAKI provides you with the Anti-Bacterial and Lead-Free laminates to keep your family and loved ones free from health issues.

As one of the leading Manufacturer, Exporters and Suppliers of PVC Laminate Sheets, We facilitate huge variety of the same for our clients to choose from. In order to meet the enormous demand for our product, We bring to use a highly-efficient manufacturing unit, where our employees carry out the manufacturing process in the most efficient manner. We cater to bulk order from clients in all parts of the world. We also make arrangements for fulfilling the individual specifications mentioned by the clients, if any. With the help of our efficient work-force and highly technical German machine, We are able to serve our clients with best of our output.

It has been an excellent experience dealing with satisfied and happy Architects and Customers all over the India. We promise to build up the same spirit of Quality and Quantity of our Durable Products among our customers of lifetime.

MERAKI by M/s Innovative Products is a widely sought-after name amongst manufacturers of PVC Products. We have been operational from Sonapat, Haryana, since 2015.

MASTER PIECE

ANTI BACTERIAL

Meraki Laminates are safe!

Meraki Laminates comes with an Anti-Bacterial Technology, tested by certified labs to safeguard your loved ones.

ANTI
bacterial

**90°
BENDABLE
PVC LAMINATES**

STEP-1

Cut your PVC Laminate sheet according to the size.

STEP-2

Check the size by placing the Plywood or WPC board on it.

STEP-3

Make mark for U-Groove Cutting.

STEP-4

Make groove with MERAKI U-Groove cutter that are easily available in the market.

STEP-5

Now cut the corners with the help of a pair of scissors.

STEP-6

Carefully bend the PVC Laminate at 90° carefully with the U-Groove mark.

STEP-7

Now stick it on Plywood or WPC with best available PVC to wood adhesives in the market.

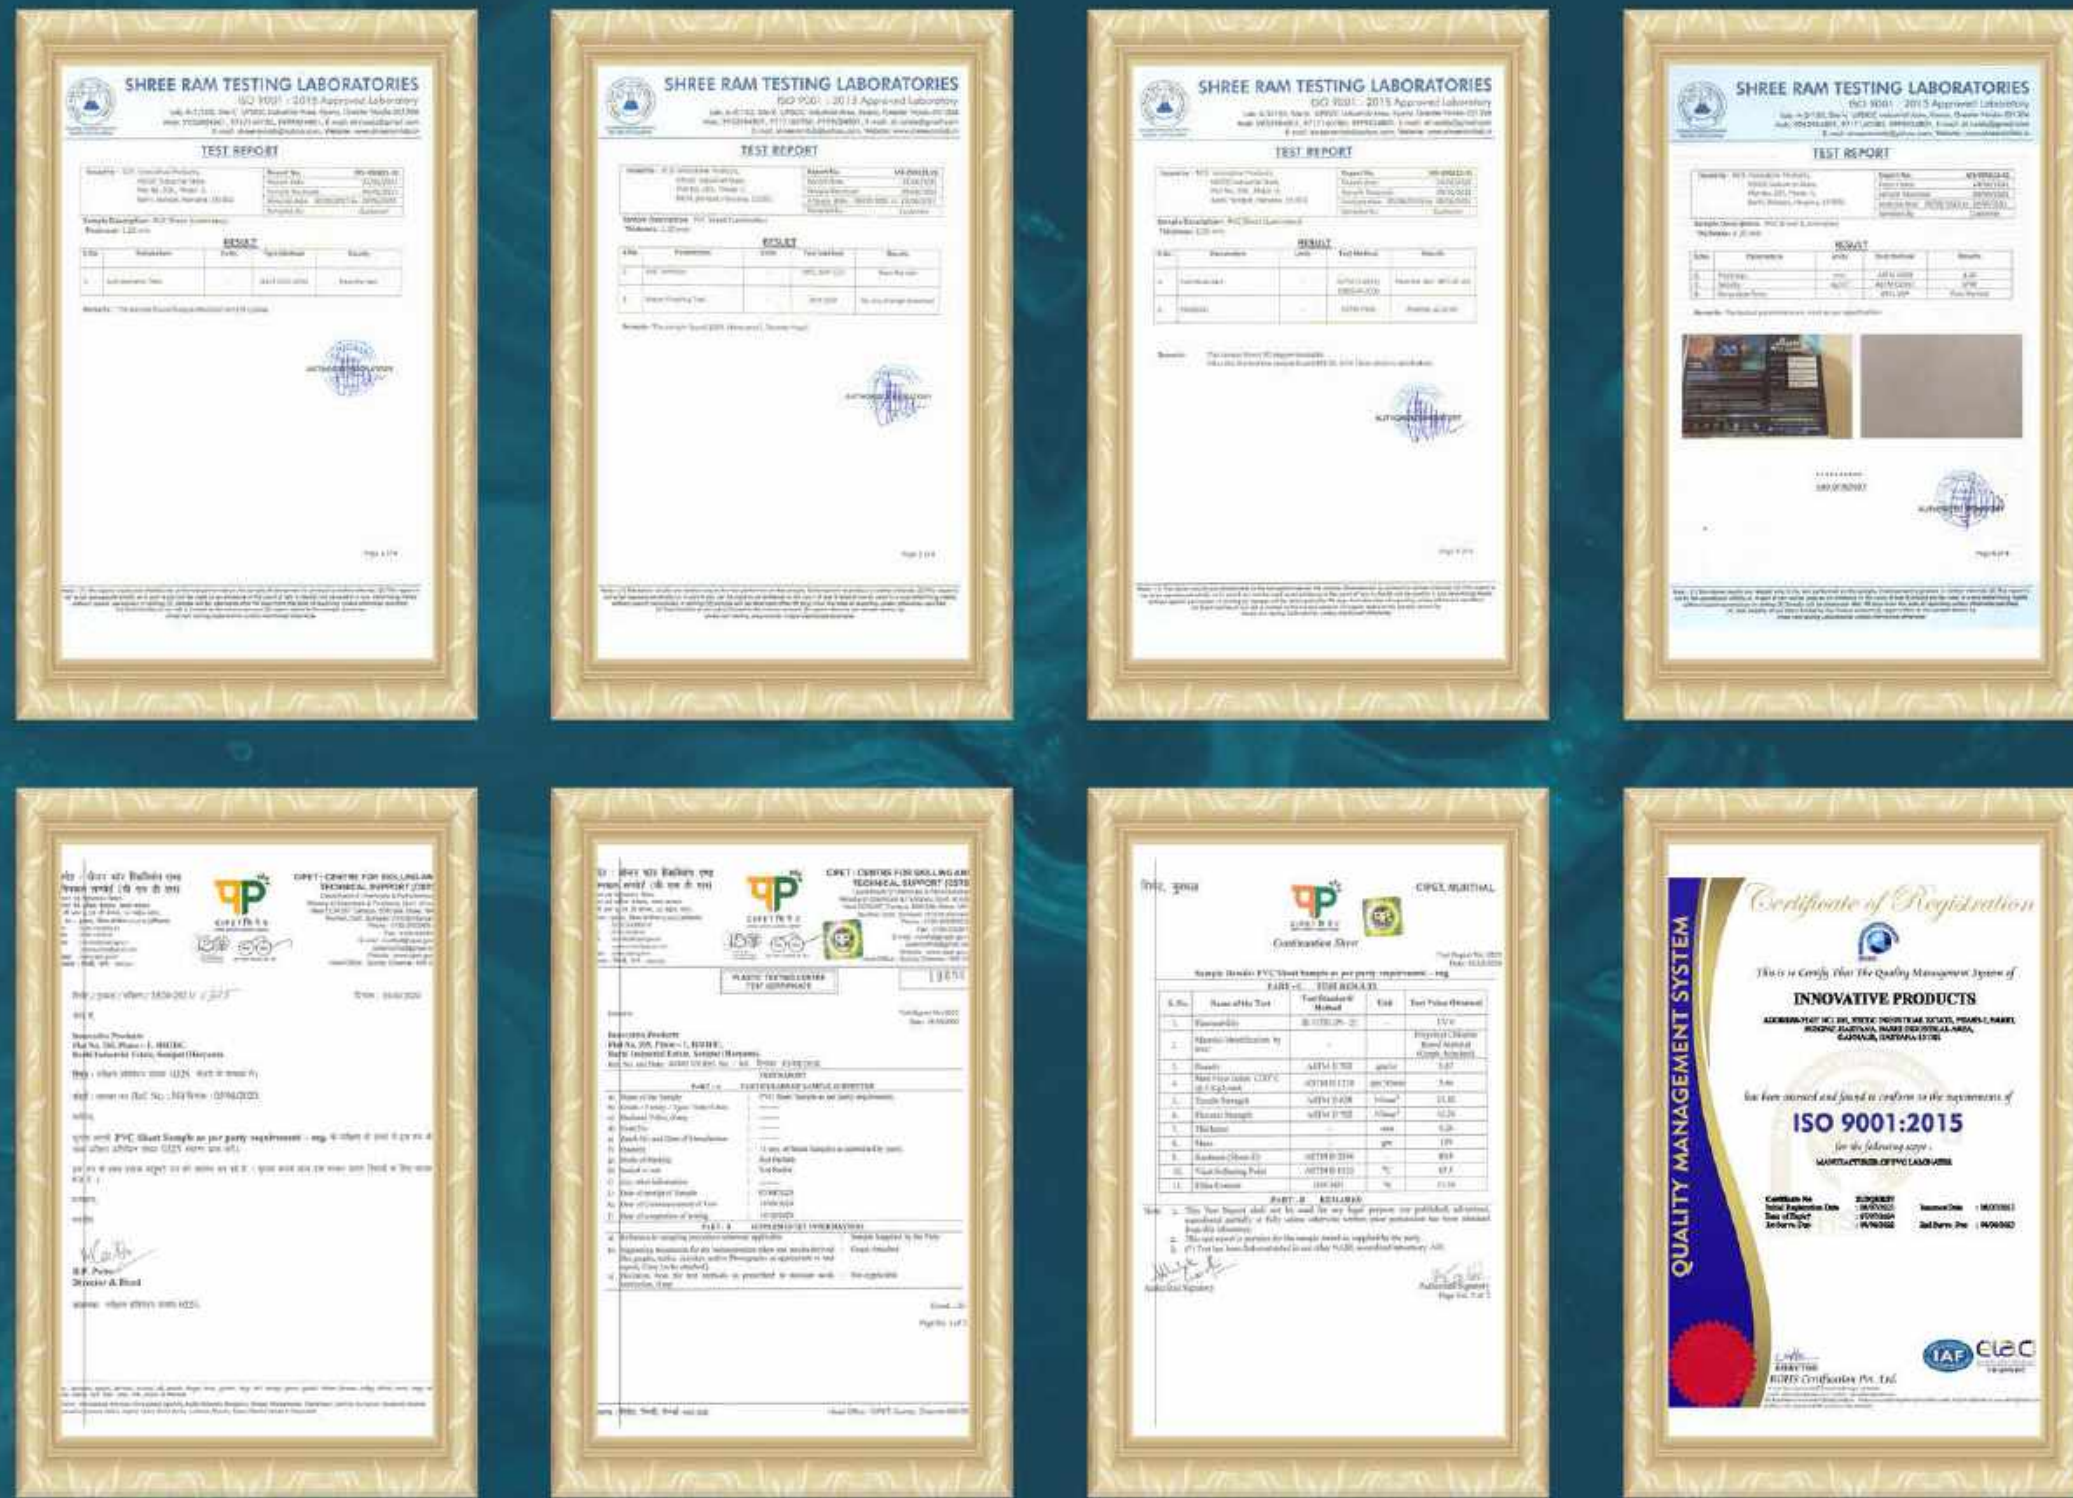

**BEND IT

TECHNICAL SPECIFICATION

THICKNESS : 1.2mm (±5%)
STANDARD SHEET SIZE : 8'x4' (±2%)

RANGE : These laminates come in a wide range of designs & colours.

ADHESIVE : These laminates are easy to apply with the standard laminating system, including most of the conventional adhesives normally used with plastic laminates such as many water based. We do not recommend the use of heat activated adhesives.

LAMINATION : Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, high density particle board, or high quality board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matter.

CUTTING & INSTALLATION : These flexible PVC Laminate Sheets can be cut, routed and drilled, with standard wood working tools or equipments (MERAKI recommends use of only diamond cutter blade to cut the sheet). All blades must be sharp to remove any burrs that may occur in the cutting process. We recommend the use of a smooth file to feather all corner edges. **In case of using of hand cutters, The company is not liable for any complaints of de-lamination and other complaints.**

BENDING AND FORMING : For bending the laminate sheets make use of 4"X8mmX6 Tee MERAKI Radius U-Groove Blade. The groove should be of depth 0.6mm to 0.8mm & width 5mm or more. The router sheet will easily bend upto 90 degree.

MAINTENANCE : Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the laminate, exposure to sunlight should be avoided.

NOTE : Meraki warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any claim, the liability of the company is only limited to the cost of the product only. Meraki is not liable for the color variations from batch to batch production. The sample swatches here only represent the designs, colors and finishes. They do not represent actual thickness.

Kindly remove the protective film after 7 days of installation of PVC Laminates.
