ANTI BACTERIAL

Meraki Laminates comes with an Anti-Bacterial Technology, tested by certified labs to safe-guard your loved ones.

MY KITCHEN LAMINATE

is completely Anti Bacterial

Meraki Laminates are safe!

STEP-1

Cut your PVC Laminate sheet according to the size.

STEP-2

Check the size by placing the Plywood or WPC board on it.

STEP-3

Make mark for U-Groove Cutting.

STEP-4

Make groove with MERAKI U-Groove cutter that are easily available in the market.

STEP-5

Now cut the corners with the help of a pair of scissors.

STEP-6

Carefully bend the PVC Laminate at 90° carefully with the U-Groove mark.

STEP-7

Now stick it on Plywood or WPC with best available PVC to wood adhesives in the market.

TECHNICAL SPECIFICATIONS

THICKNESS : 1.2mm (±5%)

STANDARD SHEET SIZE : 8'x4' (±2%)

RANGE : These laminates come in a wide range of designs & colours.

ADHESIVE : These laminates are easy to apply with the standard laminating system, including most of the conventional adhesives normally used with plastic laminates such as many water based. We do not recommend the use of heat activated adhesives.

LAMINATION : Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, high density particle board, or high quality board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matter.

CUTTING & INSTALLATION : These flexible PVC Laminate Sheets can be cut, routed and drilled, with standard wood working tools or equipments (MERAKI recommends use of only diamond cutter blade to cut the sheet). All blades must be sharp to remove any burrs that may occur in the cutting process. We recommend the use of a smooth file to feather all corner edges. **In case of using of hand cutters, The company is not liable for any complaints of de-lamination and other complaints.**

BENDING AND FORMING : For bending the laminate sheets make use of 4"X8mmX6 Tee MERAKI Radius U- Groove Blade. The groove should be of depth 0.6mm to 0.8mm & width 5mm or more. The router sheet will easily bend upto 90 degree.

MAINTENANCE : Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the laminate, exposure to sunlight should be avoided.

NOTE : Meraki warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any claim, the liability
